23/30	🖥	25	🧑	👓	28	29

👓 The Geeks   🧑 Faculty Association   📗 Library Services   🖥 I.T. Services   ▶ Virtual Sessions

COURSE PACKS, RESERVES, & BLACKBOARD 📗
NOV. 6 @ 12:00PM - 12:30PM | RM109 [BROOKS]

This session will be held at BROOKS CAMPUS.

This session will explore copyright in regards to course packs, reserves, and Blackboard. Learn the type of materials that can be included, what records should be kept, and how they will be reviewed. If your planning on using any of these resources this would be 30 minutes well spent.

NEW TECH TOYS: *SWIVL DEMO* 👓
NOV. 13 @ 12:10PM - 12:40PM | T203

The Geeks in Educational Technology Services have a cool new tech toy to show you! MHC now has a SWIVL, a hands free remote video recording unit, that faculty and staff are free to use for capturing lectures and guest speaker presentations. This robot has the ability to automatically track presenters as they walk around the room. The video can be uploaded to YouTube or posted in Blackboard. In this brief demonstration you will see how easy it is to pair the SWIVL base with any mobile device.

Q&A WITH I.T. SERVICES 🖥
NOV. 17 @ 12:10PM - 12:40PM | T203

In this recurring session, special guests from Information Technology Services will be available to answer any of your I.T. questions. If you've ever wondered about the technology on campus, please join us and share your thoughts. There will also be opportunities to learn about the current developments in the I.T. Services department.

MEDIA IN THE CLASSROOM 📗
NOV. 18 @ 12:00PM - 12:30PM | RM108 [BROOKS]

This session will be held at BROOKS CAMPUS.

Even a basic understanding of copyright might leave you guessing when it comes to using media in the classroom. Youtube, Netflix, and Google Image Search all add a layer of complexity to copyright. Take 30 minutes to learn about which resources to use, which to avoid, and which online tools will help you comply with the law.

P.D. BYTES: *YOU CAN STAR IN YOUR OWN INSTRUCTIONAL VIDEO* 🧑
NOV. 19 @ 12:00PM - 1:00PM | S154

Presented by Joanne Reynolds, *Division of Science & Health* with Barbara Mitchell, *Educational Technology Services*

P.D. RAP: *STEM CELLS: PANACEA OR FALSE PROMISE* 🧑
NOV. 21 @ 3:00PM - 4:00PM | CROWFOOT

Presented by Jonathan Horsman, *Division of Science & Health*

OUTLOOK CALENDARS 🖥
NOV. 24 @ 12:10PM - 12:50PM | T203

Shared Outlook calendars are beneficial for groups of people who need to coordinate schedules and effectively organize meeting times. In this session, both PC and Mac users will be introduced to calendar sharing and how to use the "Scheduling Assistant" to schedule meetings without sharing your calendar.

JUST-IN-TIME TEACHING 👓
NOV. 27 @ 12:10PM - 12:50PM | T203

Just-in-Time Teaching (JiTT) is a teaching and learning strategy designed to promote the use of class time for more active learning. JiTT uses a feedback loop that encourages students to take responsibility for their learning, and this session covers the JiTT model and how to integrate formative assessment strategies into teaching practice.

For All MHC Faculty and Staff
